# Wall Scrubbers

**Lightweight, all-welded construction**

**Cordless Wall Scrubber**

**Batteries & Double Charger  
sold separately**

**Vertical Handle**

**Parallel Handle Extension**

**Parallel Handle**

The **Wall Scrubbers** have been designed for removing excess sprayed material from wall studs, allowing for easy installation of drywall sheathing. The T-frame design allows the contractor to remove excess material from corners with both sides of the rollers. A totally enclosed motor ensures long brush and motor life. The V-belt driven rollers, along with adjustable tensioning feature, provide a light, smooth, positive grip system.

### Wall Scrubber

- Belt driven by 1/8 hp (T.E.F.C.) fan cooled electric motor
- Safety belt guard
- 120volt/60hz.  
(230volt/50hz. available for export)
- Stainless steel shaft & sealed bearings for extended life

### Cordless Wall Scrubber

- Cordless making it easier and safer
- Self Supporting, will stand up on base
- Belt driven by 1/8hp (T.E.) 18V DC motor
- Safety belt guard
- Stainless steel shaft & sealed bearings for extended life
- Forward and Reverse switch for upward and downward scrubbing applications
